

Mandarin Goes Mobile with the New APP, TutorMandarin

1-on-1 online Chinese classes taught by certified Mandarin tutors through a state-of-the-art Android app that features a virtual classroom, full in-app courses, interactive daily content, and more. TutorMandarin is available now on [Google Play](#) and [website](#).

TutorMandarin has officially launched its Android app today on the Google Play Store, ushering in the next step in online Chinese education. The app offers 1-on-1 online classes from professional Chinese tutors through its revolutionary new virtual classroom that features an interactive whiteboard, multimedia lessons, and more.

The TutorMandarin app comes with fully built-in courses designed around HSK standards, transparent lists of professional tutors, as well as a constantly updated section of Chinese videos, articles, and flashcards. User receive a personalized learning experience that starts with a free trial and language evaluation and continues with student resume that tracks their learning statistics. With all this put together, TutorMandarin looks to be the full one-stop-shop for the Chinese learner.

Features:

- 1-on-1 professional Chinese tutoring
- State-of-the-art virtual classroom with interactive whiteboard
- Full in-app courses built around HSK standards
- Daily updated Chinese videos, articles, and flashcards
- Individual learning statistics, notes, and badges

Whether studying for business, travel, education, the HSK, or daily communication - TutorMandarin has the tutors, education system, and technology to help Chinese learners of all levels and goals. All users get a free 50 minute trial class and full language evaluation just by signing up. TutorMandarin is available now on [Google Play](#) and [website](#).

TutorMandarin is a product of [Global Travel Assistant Ltd.](#), a technology company that leverages an innovative global communication platform with its own network of multilingual human services to create both, white label and custom solutions in the travel, education, and language industries.
